About the Event

The Institute of Optics and Precision Mechanics at Setif 1 University - Ferhat Abbas in collaboration with the Laboratory of applied optics have the privilege of hosting the 7th International Conference on Optometry (ICOP' 2025). This prestigious event aims to create a platform for students, researchers, and industry experts to engage in discussions on various topics related to vision optics, fostering the exchange of ideas and encouraging innovative thinking.

The ICOP' 2025, open to all optical professionals, will provide the latest scientific advancements in the field of optometry, while also facilitating interdisciplinary exchanges.

In addition to the thematic sessions of the conference, two professional workshops will be organized specifically for Master's and Bachelor's students.

The topics include:

Topic 1- Ophthalmic lenses

Topic 2- Optometry

Topic 3- Contactology.

Topic 4- Eye health.

Topic 5- Advanced diagnostic techniques.

Topic 6- Clinical discussions.

Topic 7- Ocular Pharmacology

The conference will be held at Mouloud Kacem Nait Belkacem auditorium which is connected by bus and tramway to the center of Setif. Many hotels at different rates are proposed. Reservation details and a complete list of proposed hotels will be communicated later.
