Join us for an immersive and insightful workshop on Monte Carlo simulations in medical physics. Led by an expert speaker in the field, this workshop will introduce academic researchers and PhD students to the fundamentals of Monte Carlo simulations and their applications in medical physics. Through computer hands-on exercises and interactive discussions, **twenty** (20) attendees will have the opportunity to deepen their understanding of this powerful tool and its role in enhancing accuracy and efficiency in medical physics applications.

Don't miss this chance to expand your knowledge and skill set in a dynamic and engaging learning environment. To secure your spot, write to: Pr Z. Chaoui : zchaoui@univ-setif.dz
